

Multimedia Designer (3d)

Based in sunny San Diego, the XYO Network is the world's first Proof of Location blockchain project. The company behind XYO Network is XY Findables, which was started in 2012 and has produced over 1 million Bluetooth and GPS hardware devices, which help customers find and keep track of their prized possessions, like their keys, purse or even their ADHD puppy who likes to take themselves on walks!

The lessons we've learned building a successful consumer IoT business has prepped us for the most exciting and ambitious chapter of our company's life: the XY Oracle Network ("XYO Network" or "XYO"). Ethereum-based smart contracts give the ability to utilize the blockchain and cryptoeconomic principles across countless industries and implementations. However, we currently don't have a decentralized and authoritative oracle to determine and verify location. The XYO Network solves this problem by creating a layered location verification service that is effective across many device classes and smart contract protocols. It's based on a set of novel cryptographic mechanisms, Proof of Origin and Bound Witnesses, which tie together the power of the blockchain and real world data collection into a system with direct applications today.

Oh yeah, and we were just featured on CNBC, too! (<https://youtu.be/Boiai8tWnhM>)

Please visit <https://www.xyo.network> to learn more.

Are you passionate about blockchain technology and its implications for our future? Do you love sharing knowledge, growing your skills, and working with great people? The XYO Network team is growing, and we are looking for extraordinary talent who enjoys building as much as we do. So if you are self-directed, enjoy autonomy in your work, and you are an excellent participant in a team, come join XYO Network today!

Responsibilities:

If you are a passionate digital illustrator with knowledge in 3D animation and illustration, then do we have an opportunity for you! We are seeking a 3D digital animator to help us dominate the blockchain and crypto world! Job responsibilities include building functional 3D and 2D animations and illustrations for digital videos, web, and more. Responsibilities also include collaborating with our different team pods to understand and objectives and design needs.

Qualifications:

- You are an awesome qualified person in graphic design, media arts, illustration, animation, or related field; or an equivalent combination of education and experience
- You have 2-5 years of professional experience developing, editing, testing and iterating advertising creatives

- You are killer at 3D animation software such as Maya, Arnold, Keyshot, zBrush or equivalent, and Adobe Creative Suite, including Photoshop, After Effects, Premiere and Illustrator
- You are familiar with texturing, lighting, rendering and asset organization
- You love working with a team and collaborating with different teams
- You are motivated to maintain and improve design standards
- You are a self-starter who doesn't need much direction
- Ability to grasp multiple design requirements with careful attention to detail
- Prior experience creating/editing web animations, including videos, playables, and banners
- Experience with 2D character animation
- Experience with 3D modeling and animation
- Game development experience (particularly in Construct 2) is a plus!
- You live or can relocate to San Diego, CA and do not need to be convinced that working in a fast-paced blockchain company out of our Hacker HQ downtown is a badass opportunity
- You are fine with fast-paced, startup environments (we are not necessarily a startup; we are a multimillion dollar blockchain and location technology company founded in 2012, but have the feel of a startup out of the show Silicon Valley)
- You live or can relocate to San Diego, CA and do not need to be convinced that working in a fast-paced blockchain company out of our Hacker HQ downtown is a badass opportunity
- You have a great attitude, you're humble, you're hungry to improve and looking for a fun environment with positive, hard-working people who care about what they do.
- You are fine with fast-paced, startup environments (we are not necessarily a startup; we are a multimillion dollar blockchain and location technology company founded in 2012, but have the feel of a startup out of the show Silicon Valley)
- You're able to work full-time and you are fine working in-person
- You are familiar with the world of cryptocurrency and/or are passionate about learning about it

Extras

- Work with a ruggedly handsome group of blockchain nerds
- Plus, benefits and stuff
- Like, free Coke Zero

We are an equal opportunity employer and value diversity at our company. We do not discriminate on the basis of race, religion, color, national origin, gender, sexual orientation, age, marital status, veteran status, or disability status.

If the above looks good to you, please apply directly to careers@xyo.network.
